Silver Wedding Anniversary.

The twenty-fifth anniversary of the wedding of Mr and Mrs L M Larson took place Sunday, Nov. 30th, at their home on Main St.

This worthy couple were married in Winnipeg, Nov. 30th, 1905, in the Swedish Lutheran church, by Pastor Rev. Ohlsen.

This being the Silver Wedding Anniversary, the occasion was celebrated in good fashion by a banquet at their home. Those present, beside the family, were: Mr and Mrs R Larson of Edmonton; Mr and Mrs A J Anderson, Holborn; Mr A Stelberg, Winnipeg; and a score of other guests.

Chomchi to Be Deported.

On Tuesday Magistrate Williams heard a case arising out of certain family differences between Mr and Mrs M Renezeski, of Carvel district. An agreement had been reached with regard to the division of certain property, but when Mike Renezeski came to get the property a dispute arose, with the result that Mike laid a charge of assault against Annie Renezeski (his wife) and Fred Chomchi, a hired man. Mrs Renezeski laid a counter charge against Mike (her husband). After hearing the evidence from all parties and witnesses of the fight, the Magistrate reserved judgment in the case of Mr and Mrs Renezeski, but found Fred Chomchi guilty and sentenced him to two weeks' imprisonment at Fort Saskatchewan and recommended deportation on his being released. Mr Basarab appeared for Annie Renezeski and Fred Chomchi; George J Bryan for Mike Renezeski.

Wi' the Braw Laddies.

The annual general meeting of the local curling club was held in the town hall Oct. 24, with 18 members attending. The officers for the 1930-31 season are—

J W McCulla, Pres.

Dr Oatway V-Pres.

W E H Lewis Sec-treas

Executive—H Miller, J Malloch,
R E Wood, W Robertson, A E Michael.

The fees for ensuing season were set at \$14. While a number of the old curlers have moved away from town, the vacancies will be filled by new members, and an extra rink is anticipated. It is also rumored that a rink may join the club from Spruce Grove and we will be glad to have those old timers with us. Mr John Willie has again been appointed caretaker of the rink, and it goes without saying that with him on the job we are assured of good sheets of ice.

We understand that operations have been started at the rink and should the weather be favorable we can expect to hear a frantic "Sweep, Sweep!" soon. Curlers, please stand by for further announcements.

HARDWICK'S

BACKED BY THE WHOLE DOMINION

Closer Union, Not Secession

In times of depression, unemployment, hard times, national disaster, there is always a tendency on the part of suffering people to demand a revolutionary change in prevailing conditions, and this demand not infrequently takes the form of an agitation not merely for a change of government, but in the form of government itself. Far away fields usually look green, much greener than those close at hand, and far greater than is actually the case. Thus in monarchies the cry is raised in favor of a republic; in republics an agitation is started to supersede the democratic form of responsible government by a form of state socialism; in socialist republics the demand is for the establishment of an out-and-out communist state.

Because Canada, in common with other countries, is suffering from the existing period of world-wide depression, unemployment, and inability to profitably market its surplus products, the cry of secession is raised. A Provincial Prime Minister, Mr. Baxter, of New Brunswick, was the first to give voice to the idea at this time, thus reviving an old cry in the Maritimes. He did not openly advocate the secession of his Province from Confederation, but in view of the continual loss by the Maritimes of industries and financial institutions through their removal to the central provinces of Quebec and Ontario, he asked the question whether New Brunswick would not be better off if it withdrew from Confederation.

In Western Canada the same question has been raised at meetings of farmers who, apparently, are not satisfied with the economic relationship existing between the east and west, and are not in accord with the fiscal policy which finds favor and strong support in the industrial centres of Ontario and Quebec. They, therefore, advocate the secession of the West from Confederation and the setting up of a new and separate British Dominion which would enjoy complete freedom of choice in the matter of fiscal policy. In a word, they hold that a fiscal policy which may be advantageous to the central industrial provinces is not in the interests of the agricultural western provinces, and that inasmuch as it is impossible to have two fiscal policies, one for the east and one for the west, the best thing to do is to separate politically and build up two British Dominions instead of one on the North American continent.

Such radical ideas do not flourish when times are good and people prosperous. It is only when people are discouraged and suffering loss, and conditions look dark and desperate, that such suggestions are advanced and receive more or less consideration.

But secession is not the path which the people of any part of Canada should travel. The Dominion has passed through many grave crises. It has weathered many a storm. It has grown stronger as a result. In its very unity is to be found strength, not only for the whole but for each provincial unit. Linked together all the provinces are stronger financially, and in every way, than they could possibly be if divided and separate.

The genius of the Canadian people can surmount the existing difficulties. It may require patience and fortitude; it certainly will demand a large degree of patriotism and unselfishness. There will have to be less insistence on the part of any one section of the Dominion that their views alone must prevail. There must be more widespread acceptance of the fact that the economic position of east and west is radically and fundamentally different; that while they are the complement one of the other, neither can prosper and survive if one alone is to dominate and seek to control. Insistence on any such blind and selfish programme must end in disunion.

But Canada is yet a long way from an impasse where the only way out is secession of either the Maritimes or the one hand, or the Western provinces on the other hand. Central Canada cannot prosper without the business which the far eastern and the far western provinces give to it, and inasmuch as it is the western provinces that are suffering most acutely today, and are least benefited by the fiscal policies which Central Canada prefers, it would seem inevitable that Central Canada must modify its views.

Instead, however, of talking or even thinking secession at this time, the whole thought and energies of our people, east, west and central, should be devoted to the patriotic task of working out a compromise policy which, while giving neither east, west nor central all that they may desire, will, nevertheless, work neither hardship nor injustice to any part, but will give to one and all a fair-handed deal and equality of opportunity to develop their own resources and business along legitimate lines.

We have differences in outlook, different problems, different ideas as to policy for the solution of those problems, but we are inherently one people, with a common past and a common future. Our greatest gain and our permanent prosperity lies in strengthening, not weakening our union.

Win Highest Honors

British Columbia Apples Score High at Imperial Fruit Show

High honors in the Imperial Fruit Show in London, England, have been won by British Columbia apples, exhibited by the Associated Growers of the Okanagan Valley in competition with fruit from all over Canada, according to cable advices received by the Department of Agriculture in Victoria. The B.C. fruit has been awarded the cup presented by the Agents-General of all the Canadian provinces in London, for the finest all-round exhibit. The trophy was won by Nova Scotia last year, the award being based on the total marks received by all classes of fruit shown by any exhibitor.

Failed To Produce Rain

Aviators in China Seek To Generate Precipitation By Attacking Storm Clouds

During a recent drought which was water famine in Hong Kong, China, skilled birdmen sought to generate precipitation by attacking storm clouds with a chemical called deolin. This material is supposed to induce refrigerating action when it penetrates the clouds, causing condensation and eventual rainfall. When put to the test, however, the chemical failed, as have the majority of devices designed to produce rain artificially. Aviators showed the clouds directly above Hong Kong with more than 100 pounds of the chemical, but not a drop of rain resulted from this scientific attack.

Prizes Go To Alberta

Take First Honors in Pig Club and Calf Club Competition At Winter Fair

Alberta is well satisfied with the result of the judging at the Royal Winter Fair, according to H. A. Craig, deputy minister of agriculture. In the pig club team for the second time the sunny province has carried off first place, the team this year being made up of William Schmidt and Robert Wylie, both of Vegreville, Saskatchewan came second and Manitoba third. In the calf club competition the Alberta team of Borden and Vernon McKnight of Camrose led all other provinces with Quebec second and Ontario third. First place in winter wheat went to S. Alsop of Wembley, in the Peace River district. The showing made in spring wheat was not quite so good, Alberta carrying off fourth, seventh and 14th place in a large and keenly contested class.

Automatic Phone For Blind

Disc Is Fitted With Numbers, and Letters in Braille

No sooner have people become accustomed to the automatic telephone, where—on a ring with holes for letters and figures, they find the wanted number for their calls, than another invention comes in sight. This is the automatic telephone for the blind which the Paris Post Office has designed. Over the ordinary disc another ring is fitted, with numbers and letters in Braille. The blind person can easily slip it over the disc, and then is able to find letters and numbers with as much ease as those who are blest with sight can.

Overwork or Worry

Takes the Health Of Thousands Of Young Girls

In the "teen-age" years when school or office work is exacting and outside activities use up so much energy, many girls undermine their health and spoil their happiness for years to come by overwork.

At such a time Dr. Williams' Pink Pills will be found most valuable. They purify and enrich the blood; build up the nerve cells and correct run-down conditions. Concerning Miss Margaret Torrey, Indian Road, Toronto, Ont., says: "When I was attending high school I suffered a complete breakdown. My heart would palpitate at the least exertion; I could not sleep and nothing I ate agreed with me. I began taking Dr. Williams' Pink Pills and before long I gained in weight and every distressing symptom had disappeared."

Dr. Williams' Pink Pills are sold by medicine dealers or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Africa Taking The Lead

Women Have Been Appointed As Members Of Church Synod

A remarkable thing has happened in the Church in Uganda. It has been decided that 12 African women shall have places at all future synods. England has grown used to the idea of a woman Cabinet Minister, and England will not be startled by the thought of women on an ecclesiastical council in Africa; but Africa itself is startled.

For long years the African woman has been regarded as little better than a beast of burden. In some parts of the world a woman may not even eat in her husband's presence. But now African women are to be members of the synod, along with three kings and many great chieftains.

To Asthma Sufferers. Dr. J. K. Kellogg's Asthma Remedy comes like a helping hand to a sinking swimmer. It gives new life and hope—something he has come to believe impossible. Its benefit is too evident to be questioned—it is the best argument—its own best advertisement. If you suffer from asthma get this time-tested remedy and find help like thousands of others.

Canadians Are Honored

The children of Japan added their welcome to the demonstrations of friendship which have been given to the trade delegation of the Canadian Chambers of Commerce since its arrival in Tokyo, Japan. Twenty thousand children gathered in a natural amphitheatre and sang choruses to the visiting Canadians. The scene was one of great beauty, and one of the most impressive events of the tour.

Minard's Liniment for All Pains.

Don't Let Foods Stale

Foods that ordinarily stale quickly will stay fresh and tempting a surprisingly long time if you cover them with Para-Sani Heavy Waxed Paper.

Your grocer, druggist or stationer has Para-Sani in the handy, sanitary knife-edged carton. For those who prefer a lighter paper put up in sheet form ask for Appleford's "Centre Pull" Packs.

War Claims Are Settled

Secretary of State Concludes Business With Germany and Austria

Satisfactory agreement with Germany and Austria for the settlement of all claims arising out of the sequestration of enemy property in Canada and of Canadian property in Germany and Austria during the war were concluded by Hon. C. H. Cahan, secretary of state, who returned to Canada on Sunday, Nov. 23, on the "Empress of Australia," from visits to Berlin, Germany, and London, England. The agreements were negotiated in accordance with the terms of the Hague protocol accepting the Young plan.

New Laying Record

Leghorn Pullet In British Columbia Lays 357 Eggs In 365 Days

A new world record of 357 eggs in 365 days was made by Leghorn pullet number five in the test at Agassiz, B.C., under trap-nesting rules. The eggs averaged more than 29 ounces to the dozen. The bird is from the stock of the University of British Columbia, and is owned by Mr. and Mrs. Whiting of Port Kells, B.C. The success of the bird is attributed largely, by W. H. Hicks, superintendent of the Experimental Farms at Agassiz, to its being fed with lots of skim milk and greens, in addition to the usual scratch grain and mash.

Persian Balm tones and stimulates the skin. Fragrant as a flower. Cool as morning dew. Safeguards and beautifies the most delicately-textured skin. Creates complexion of exquisite charm. Adds a subtle finish to the fairest woman. Invaluable for softening the hands and making them flawlessly white. Cool and refreshing. Daintily fragrant. Delightful to use. Chosen unhesitatingly by all women who care for feminine distinction.

Saskatchewan Fish

The first distribution of Loch Leven trout fry in the Cypress Hills waters in Saskatchewan was made in 1924, with additional distribution in each succeeding year. In the 1929 angling season some of the trout which were caught weighed as much as six pounds and measured twenty-six inches in length and thirteen inches in girth.

Price 50c a box

Sold at all drug and general stores, or mailed direct on receipt of price by The Milburn Co. Ltd., Toronto, Ont.

Working On Telephone Line

British Columbia Starts Link Of Trans-Canada System

Construction of the British Columbia link of the first trans-Canada telephone system—a project which will mean the expenditure of \$1,250,000 in the province—has commenced. It is announced by the British Columbia Telephone Company.

The British Columbia portion of the system involves the erection of some 556 miles of telephone line, of which 125 miles has already been built.

The importance of the new line from a Dominion standpoint is that at the present time, telephone calls from Vancouver to Eastern Canada have to be routed across the United States, via Seattle.

Miller's Worm Powders will not only expel worms from the system but will induce healthful conditions of the system under which worms can no longer thrive. Worms keep a child in a continual state of restlessness and pain, and there can be no comfort for the little one until the cause of suffering be removed, which can be easily done by the use of these powders, which are very effective.

Anti-Fascists In Trouble

Several Arrests Made In Rome For Political Reasons

Seven arrests have been made during the past few days in Rome for political reasons, probably in connection with a number of chain letters denouncing the government.

Bartolo Belotti, a statesman of the old regime, was arrested and sent to "Confinio," meaning one of Italy's prison islands, because of opposition to the government. Belotti was minister of finance under Premier Nitti and is now chief of the anti-Fascists.

Another man arrested for the same reason is Dr. Giuseppe Renzi, professor of philosophy at the University of Genoa, who also was sent to "Confinio."

Relieve your Cold with Minard's Liniment.

"I had to discharge my nurse for being cruel."

"What did she do?"

"She kicked poor Fido for biting the baby."

Smothering and Fainting Spells

Everything Would Turn Black

Mrs. Andrew Black, Harcourt, N.B., writes: "I had been troubled with smothering and fainting spells and even losing my front of me would turn black, and I would fall down in a faint and be unconscious for several minutes. I did not know what to do, until one day I was reading where Milburn's Heart and Nerve Pills had helped so many people and decided I would give them a trial. At once I bought a box and found they help me wonderfully."
